

GLOBUS ATTENDS THE 28TH ANNUAL ANODIZING CONFERENCE & EXPOSITION

The Royal Sonesta Galleria in Houston, TX will host the 28th Edition of the Annual Anodizing Conference & Exposition.

Globus, as a supplier of Continuous Coil Anodizing Lines, is attending for the first time the main event of the Aluminium Anodizers Council (AAC). The Conference and Exposition is a key event for companies and professionals involved in operating, maintaining or promoting the anodizing process.

Globus, together with its US subsidiary Double Globus, will introduce to the visitors the advantages of anodizing aluminium strip in a continuous and controlled process: extraordinary anodization quality and surface appearance and outstanding colored finishes allow for higher productivity and lower operating costs compared to the traditional production in batches.

We are waiting you at our booth on October 1-3, 2019 in Houston, TX!
